

Zakwan Mansuri

AI TECHNOLOGY & BUSINESS CONSULTANT

Ahmedabad, India | +91 97121 21230 | mansurizak@gmail.com | linkedin.com/in/zakwanai

PROFESSIONAL PROFILE

Business-oriented AI Technology Consultant with 6+ years of experience building and managing project-based work for clients in the United States and global markets. Developed a delivery model that connects international client requirements with suitable India-based professionals across technology, automation and digital growth assignments. Experienced in finding opportunities, understanding requirements, defining work plans, coordinating execution and managing progress through final delivery, while personally completing technical, analytical and strategic tasks where appropriate. Supported by a practical background in AI, machine learning, software and business operations.

CORE COMPETENCIES

International Client Acquisition	Business Operations & Delivery	Project Scoping & Planning
Resource & Workflow Coordination	Digital Growth Strategy	AI, ML & Automation

PROFESSIONAL EXPERIENCE

AI Technology & Business Operations Consultant | Freelance / Independent | Apr 2020 - Present

India & Global Remote

- Built a project-based consulting practice by identifying overseas clients and opportunities across software, AI, data, automation, digital growth and selected non-technical business-growth work.
- Understood client objectives and translated them into practical scopes, work plans, responsibilities, timelines and expected deliverables.
- Identified and coordinated suitable India-based professionals, assigned work according to capability, followed up on execution and brought individual contributions together for delivery.
- Managed the overall workflow across communication, progress tracking, issue resolution, quality review and final delivery, adapting the process to each project's requirements.
- Personally completed tasks that matched my capabilities, including technical development, analysis, testing, documentation, research, automation and digital-growth strategy.
- Maintained repeat client relationships through dependable coordination, hands-on ownership and consistent delivery across remote engagements.

Digital Growth & Strategy Consultant | Sydney-Based Construction & Joinery Business | Remote Jul 2026 - Present

Business | Remote

- Work directly with the CEO to understand the company's priorities and develop a practical digital growth strategy aligned with its current requirements and capacity.
- Support planning across website improvement, search and local visibility, Google Business Profile, social content, AI-assisted marketing videos, lead generation, analytics and workflow improvement.
- Translate the CEO's priorities into manageable initiatives, recommendations and implementation steps that can be taken forward progressively.

Family Business Operations | Laces & Ladies' Accessories | Ahmedabad, India Ongoing

- Practical involvement in a 30+ year family business supported by a retail outlet and direct relationships with manufacturers and wholesalers.
- Developed practical understanding of relationship-led business, product and supplier networks, retail and wholesale coordination, customer needs and day-to-day problem-solving.
- Connected with a broader Gujarat business network spanning textiles, chemicals, manufacturing and machinery.

BUSINESS, OPERATIONS & TECHNOLOGY CAPABILITIES

Business & Operations: Client acquisition, requirement discovery, project scoping, work planning, resource coordination, progress tracking, quality review and delivery management.

Project Delivery: Breaking requirements into manageable tasks, selecting suitable professionals, following up on execution, solving delivery issues and combining work into the final outcome.
